KIRLOSKAR VAPOUR ABSORPTION CHILLERS

Kirloskar Pneumatic Co. Ltd. (KPCL) pioneers in the field of Refrigeration and Air-Conditioning in India have dominant presence in Compressors, Refrigeration & Marine Systems and Process Gas applications. **Kirloskar is now offering State of Art, Highly Efficient Vapour Absorption Chillers.**

STEAM DRIVEN – KRCW & KREW SERIES

Refrigeration Capacity : 150 to 500 TR*
Chilled water in / out : 12 / 7 °C**
Cooling water in / out : 32 / 37.5 °C**
Steam Pressure : 8 kg/cm² g**
Fuel : Gas, Oil.

DIRECT FIRED – KRCD & KRED SERIES

* Higher capacity models - coming soon **We can offer chillers at different conditions.

FEATURES

- Factory Assembled and Tested
- Compact design
 - Smaller foot print
 - Smaller section
- Energy saving Design
 - Auto purge needs no power
 - Faster start-up
 - Reduced dilution time
 - Optimised pump operation
- Crystallisation free
- Lowest energy consumption (steam / fuel)
- Reliable operation – Low maintenance
 - Marine type water headers
 - Clean Solution
 - Clean Refrigerant
 - Continuous vacuum
- PLC control panel for optimum performance
 - Digital display
 - Failure recovery function
 - Instantaneous Power failure recovery
 - Pre-alarm system for preventive maintenance

APPLICATIONS

The chilled water generated from Vapour Absorption Chiller can be used effectively for air conditioning and process cooling applications.

Power Plants

Pharma/Chemicals/Fertilisers

Tyre

Textiles

Food Processing (Mango Pulp)

Hospitals & Hotels

Paper

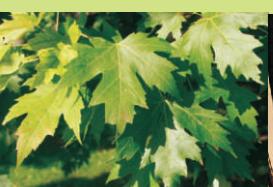

Paint Booths

Steel

OZONE SAFE / NO CFC'S OR HCFC'S
